SSC	N. V.Chinmaya Vidyalaya, Shegaon	Central Board of Secondary Education.	84.80 %	2019

PROJECTS DEVELOPED

Project Name	Platform	Description
Trip Planner System (Android)	Java, Android Studio, Firebase (Auth), XML	Built a dynamic Android Trip Planner app using Java and Firebase with real-time user-admin interaction. Enabled trip creation with checklists, budget tracking, image search, and full CRUD features in a clean, responsive UI.
Happy Socks (E-commerce)	HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, Visual Studio Xampp	Developed a full-stack e-commerce site for sock sales with a clean, responsive UI. Implemented product browsing, search, filters, cart management, real-time updates, and secure user/admin authentication.
CineVibe (WebDevelopment)	HTML, CSS, JavaScript (Frontend), Node.js, Express.js (Backend), OpenAI API, TMDB API, Render (Deployment)	Developed a full-stack movie recommendation platform that suggests films based on user moods using AI (OpenAI API) and real-time data from TMDB (The Movie Database). Implemented features like mood-based recommendations, trending/now-playing/upcoming movies, shuffle mix, detailed movie info with OTT availability, trailers, and “More Like This” suggestions. Integrated search history, watch rooms, and background theme music for an engaging and interactive user experience.

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, Python (Basics), SQL
Libraries, Frameworks, Technologies & Tools	HTML, CSS, Bootstrap, XML, PHP, Tailwind CSS, Git & GitHub, VS Code, Android Studio, IntelliJ IDEA, jQuery, Adobe Illustrator, Notion, Selenium, Power BI, Tableau , OpenAi , Gemini
Databases	MySQL, Firebase , Supabase

INTERNSHIP EXPERIENCE

Organization	Kalyani Steels Ltd.	Duration	May 2023 - Jul 2023 (3 Months)
Designation	Junior Software Analyst	Key Role	I supported the QA team in testing basic web application features, mostly by running existing Selenium scripts and checking results. I used simple SQL queries to verify data and helped report bugs to the developers. I also helped document test results in Excel and assisted with general QA tasks as needed.

Certifications

- Web Development (HTML, CSS, JS, Tailwind, Animation and Responsiveness) - Codehelp
- Python (Classification) - Coursera
- Java (Programming for Beginners) - Coursera
- SQL (Introduction for Querying Databases) – Coursera
- Introduction to Git and GitHub.
